**Registration:** 1/8/07—1/19/07  
Mon.—Thurs. 2:00-8:30pm  
Fri. 8:00am-2:30pm

## DIGITAL PHOTOGRAPHY

### How to Take and Display Great Photographs

This course is a beginning level course. Students with digital, SLR, disposable or what ever you use to take photographs will come away with new life in your photography. This course will assist you in making your good shots great shots. Find out the latest in digital photography, discover what equipment is new and how to get the most out of it. The instructor is an amateur photographer who has years upon years of experience and has used miles and miles of film. He is very excited about bringing this class to Forest Hill.

We teach in a very traditional style, with a textbook and homework, yet the class is a very open and comfortable experience. There is a lot of discussion and student interaction. It is certain that you will come away knowing how to take outstanding pictures like the above lighthouse. The students who took the course in the Fall of 2006 ended up making images as good as the photographs in magazines! We taught them how it is done and we can teach you.
